

The client is the focus of our nationwide tax practice.

We work hard to minimize your tax liability. As we prepare the income tax return, we keep a critical eye toward deductions you should take, credits you are eligible for and ways of keeping more cash in your bank account.

Tax Planning

Just as important as focusing on reducing your tax during the tax preparation is the tax planning aspect to reduce future taxes. We recommend short and long term tax planning and here lies the opportunities for real tax savings.

Retirement plans, educational plans, acceleration of deductions, type of business formations and tax credits are just a few of the many ways to reduce your business and personal taxes.

Our firm does a significant amount of work in each of the following areas:

- [Personal Taxes](#)
- [Small Business Taxes](#)
- [Form 990 / Non-Profit Taxes](#)

Call or email us today to discuss your tax savings options. Services offered nationwide.
